

TAP MAGIC[®] XTRA-FOAMY[®]

A HIGH-VISIBILITY
FOAMING ACTION
CUTTING FLUID WITH
EP-X³[®] FOR EXTREME
PERFORMANCE ON
EVEN THE HARDEST-TO-
MACHINE METALS

- Ideal for all cuts on all metals – especially high-nickel alloys, inconel, stainless, titanium and other hard metals up to 45 RC!
- High visibility foam lets you gauge application rate and fluid presence.
- Clinging action stays with the tool longer.

*Extreme performance with
high visibility*

Believe In Magic

Tap Magic XTRA-FOAMY is your best choice of cutting fluids when the work demands extreme performance and you want the convenience of high visibility. You'll enjoy superb precision and a beautiful micro-fine finish regardless of the cut or the metal – even hard-to-machine metals up to 45 RC. Contains no 1,1,1 trichloroethane. Available in a tall-boy aerosol can.

HIGH VISIBILITY. EXTREME PERFORMANCE.

Thanks to its high visibility, Tap Magic XTRA-FOAMY lets you gauge application rate and easily detect the presence of fluid. You can see it penetrate right to the cutting edge of the tool.

Tap Magic® XTRA®-FOAMY is an extreme performance high-visibility cutting fluid that delivers superior results on any cut or metal. It is especially effective on hard-to-machine metals such as high-nickel alloys, inconel, titanium, stainless and other hard metals up to 45 RC.

Can be used as a stand-alone fluid or as a booster (such as in CNC operations) when extra cutting performance is required.

The foam consistency allows you to conveniently gauge the application rate and presence of fluid. Tap Magic XTRA-FOAMY contains the proprietary EP-X3® additive for a performance boost.

It virtually eliminates work hardening. And it has an extended cling time – so it stays with the tool and work piece longer.

OTHER FORMULAS

Tap Magic XTRA-FOAMY is joined by a number of other Tap Magic Cutting Fluids, each carefully engineered for superior performance.

- Tap Magic with EP-XTRA® is an ozone-friendly, professional-quality cutting fluid that's highly effective for virtually any cutting operation on any metal.

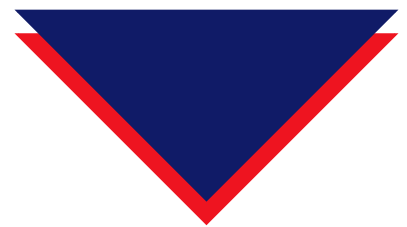

- Tap Magic XTRA®-THICK is a super-heavy-weight cutting fluid without equal for deep hole cuts and other cuts of long duration on hard metals– and has a superior cling time for lathe and mill work.

- Tap Magic Aluminum is specifically formulated for work on aluminum.

- Tap Magic Formula 1 Aqueous is totally biodegradable and has a non-corrosive water base. Highly effective for all cuts on all metals except magnesium.

- Tap Magic Formula 2 Eco-Oil is totally biodegradable and has a unique base of natural oil that resists smoking and fuming, even on cuts that produce a lot of heat.

- Tap Magic ProTap, our original biodegradable formula, is an outstanding general purpose cutting fluid that's free of all regulated chemicals.
